

Partner Information

Help your clients stay commercially competitive, without building emissions capability internally.

Australian reporting entities are now legally required to report Scope 3 supply-chain emissions, so suppliers and contractors of every size are being asked for emissions information by their largest customers. Businesses that cannot respond risk procurement delays, tender exclusion and loss of contracts. Less Carbon provides a fully online Carbon Assessment and certified Supplier Emissions Certificate process built for Australian SMEs: AASB S2 compliant, based on government and industry standards, delivered in 3 business days. As a referral partner, you give clients a specialist answer while remaining their trusted adviser.

The commercials

10% CLIENT DISCOUNT Applied automatically when your client enters your referral code	10% PARTNER COMMISSION On completed engagements, paid monthly, tracked automatically	Lifetime ATTRIBUTION Your code links the client to you permanently. No expiry windows
---	---	--

Why firms join

Protect client relationships	Help clients respond before emissions requests become a commercial problem.
Additional revenue	Clients receive discounted pricing; your firm receives commission on completed engagements.
No internal capability required	No specialist staffing, technical workflows or emissions expertise needed in your firm.
Your client remains your client	Less Carbon is a narrow, focused service, not a consulting business. We are not after your clients.
Fully online workflow	Streamlined, AI-assisted, human-reviewed. No meetings, no admin, no back-and-forth.

How it works

- 1 Register online** — Complete the partner registration form. Approval confirms your firm and sets up tracking.
- 2 Receive your referral code** — Your unique code applies the client discount and attributes the client to you, for life.
- 3 Client completes the online process** — Pre-qualifier, intake and document upload. About 30 minutes of their time.
- 4 Assessment completed** — AI runs the calculation; a qualified reviewer signs off. 3 business days.
- 5 Certificate issued** — Your client receives their Carbon Assessment and certified Supplier Emissions Certificate, valid 12 months.
- 6 Commission paid monthly** — Every completed engagement from your code is tracked automatically and paid monthly.

What your client receives

A Scope 1 + 2 **Carbon Assessment** and a certified **Supplier Emissions Certificate** with a unique certified reference number, valid for unlimited use for 12 months, with discounted annual renewals. AASB S2 compliant, based on government and industry standards, in the standardised format procurement teams already accept.
